IEEE 2024 International Conference on Web Services (ICWS) at the 2024 IEEE WORLD CONGRESS ON SERVICES

<https://icws.conferences.computer.org/2024/>

The International Conference on Web Services (ICWS) has been a prime international forum for both researchers and industry practitioners to exchange the latest fundamental advances in the state of the art and practice of Web-based services, to identify emerging research topics, and to define the future of Web-based services. Areas include services modeling, development, publishing, discovery, recommendation, composition, testing, adaptation, and delivery, and Web services applications and standards.

All topics relevant to Internet/Web based services are of interest. ICWS will organize refereed paper reviews in 8 research areas (themes):

- [Special Track] Generative AI in Web Services
- [Special Track] Datasets & Benchmarking for the Services Computing Community
- Service Discovery, Selection and Recommendation
- Services Composition
- Services QoS Management
- Services Security, Privacy & Trust
- Service Applications beyond the Web
- Service-oriented Systems

Authors are invited to prepare early and submit original papers to any of these conferences at www.easychair.org. All submitted manuscripts will be peer-reviewed by at least three reviewers. Accepted and presented papers will appear in the conference proceedings published by the IEEE Computer Society Press. The use of content generated by artificial intelligence (AI) in an article (including but not limited to text, figures, images, and code) shall be disclosed in the acknowledgments section of any article submitted to an IEEE publication. The AI system used shall be identified, and specific sections of the article that use AI-generated content shall be identified and accompanied by a brief explanation regarding the level at which the AI system was used to generate the content.
